**REQUEST FOR CORRECTED FILING RECEIPT**

Sir:

This is to request correction of the November 20, 2003 Filing Receipt issued in connection with the above-identified application.

The number of the European Patent Application listed under "Foreign Applications" is incorrect. The number listed on the Filing Receipt is 991181207.7. However, the number should be 99118120.7 as was listed on the Print EFS form filed with the application (copy enclosed).

The title listed on the Filing Receipt is incorrect. The word "in" is missing between the words "use" and "diagnostic," and "hpxr" should be "hPXR". Thus, the title should be "Polymorphisms in the human hPXR gene and their use in diagnostic and therapeutic applications."

Applicants request that the Filing Receipt be corrected as indicated in red ink on the enclosed copy and that a new Filing Receipt incorporating the requested corrections be issued.

Applicants do not believe any fee is due in connection with the submission of this paper. However, should any fee be due, the Director is authorized to charge same, or credit any overpayment, to Deposit Account No. 06-1075. A duplicate copy of this transmittal letter is submitted herewith.

Respectfully submitted,

**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
